

Sikkerhedskopiering af fotos.

Ved hjælp af Google

Download Google fotos. =>

Login med gmail konto (e-mailadresse)

Vælg sikkerhedskopier:

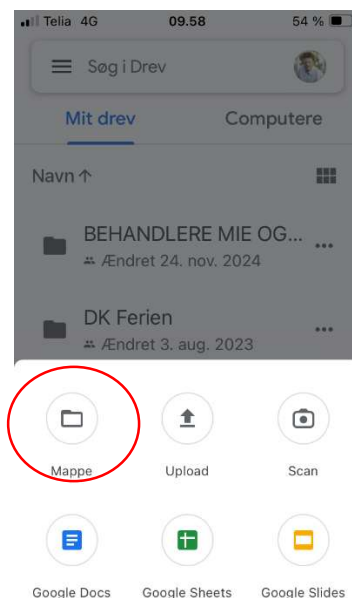

Kopier de vigtigste fotos til mappe på Google Drev

Klik på Google Drev:

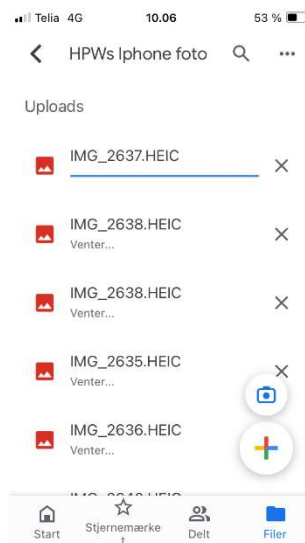

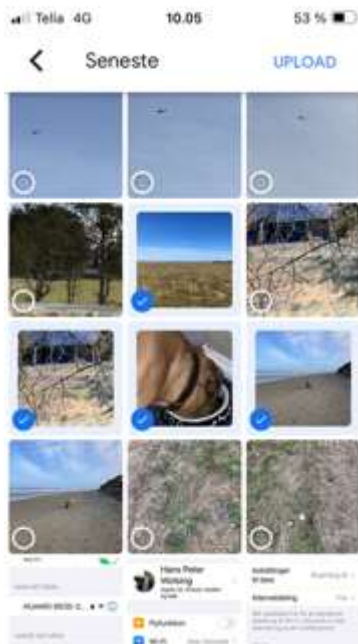

Lav en mappe, hvis ikke du har den i forvejen

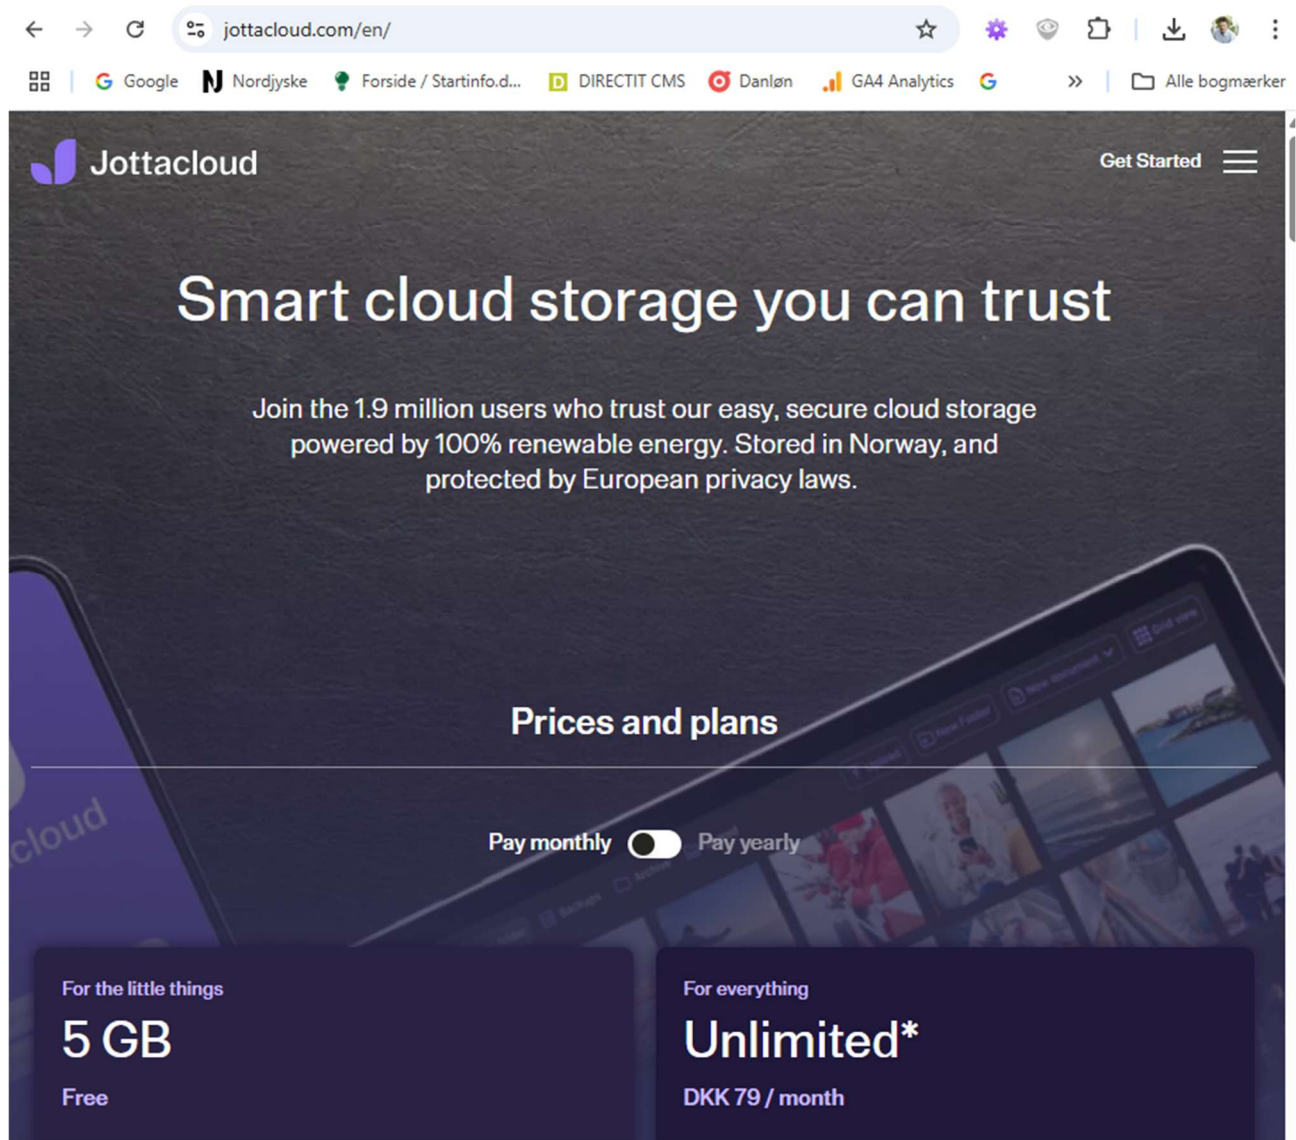

Når mappen er lavet, så gå ind i den og vælg upload:

Sæt derefter ”flueben” ved dem du ønsker at gemme:

Man kan også vælge en Cloud service

Her den Norske Jottacloud (<https://jottacloud.com/en/>)

The screenshot shows the Jottacloud website in a web browser. The browser's address bar displays jottacloud.com/en/. The website's header includes the Jottacloud logo and a "Get Started" button. The main heading reads "Smart cloud storage you can trust". Below this, a subheading states: "Join the 1.9 million users who trust our easy, secure cloud storage powered by 100% renewable energy. Stored in Norway, and protected by European privacy laws." The "Prices and plans" section features a toggle switch for "Pay monthly" (selected) and "Pay yearly". Two pricing plans are listed: "For the little things" with "5 GB" of storage for "Free", and "For everything" with "Unlimited*" storage for "DKK 79 / month". The background of the website features a dark, textured design with images of a smartphone and a tablet displaying the Jottacloud interface.

Jottacloud

Get Started

Smart cloud storage you can trust

Join the 1.9 million users who trust our easy, secure cloud storage powered by 100% renewable energy. Stored in Norway, and protected by European privacy laws.

Prices and plans

Pay monthly ☒ Pay yearly

Plan	Storage	Price
For the little things	5 GB	Free
For everything	Unlimited*	DKK 79 / month

Den er gratis og let at logge ind på med fx Google konto, Facebook mv.

Man skal lige finde ud af den, men når først man har det, virker den ret godt.

Sæt din telefon i PC'en via USB (oplader stik)

Først giv tilladelse på telefonen.

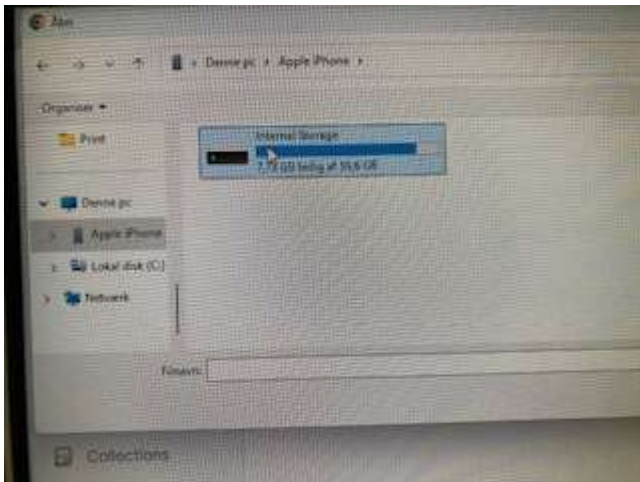

Gå i stifinder

Klik på telefonen her Apple iPhone

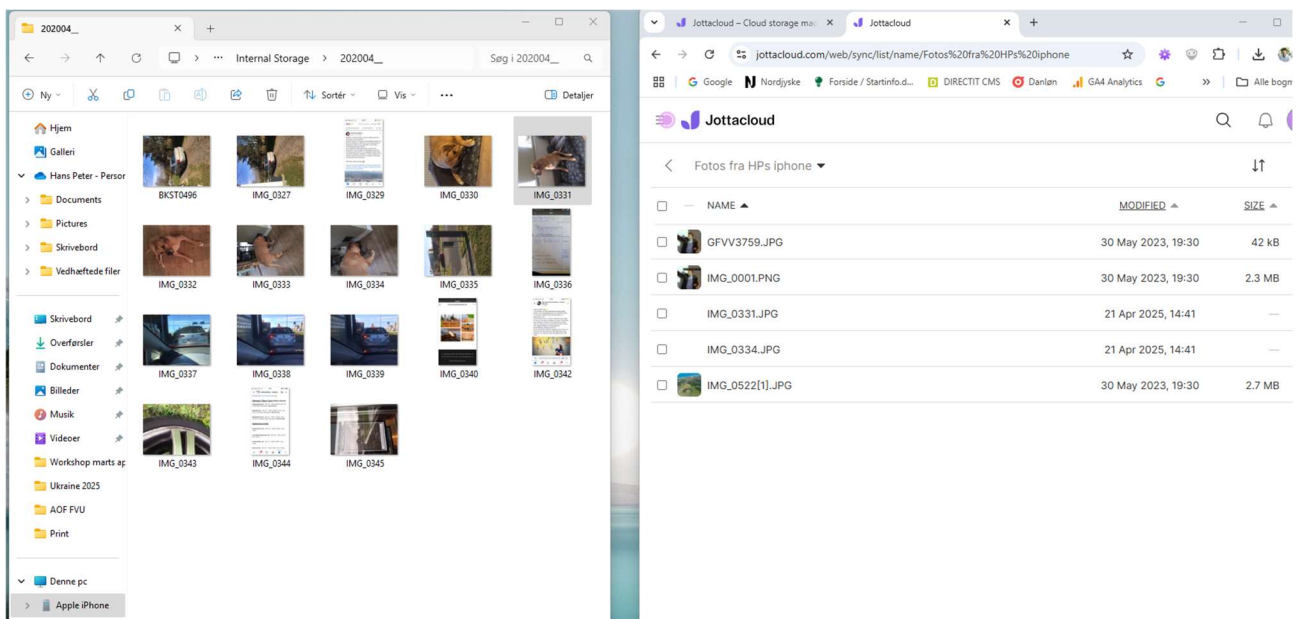

- ✓ Denne pc
- > Apple iPhone
- > Lokal disk (C:)
- > Netværk

em:

Klik og der kommer en oversigt over mapper frem.

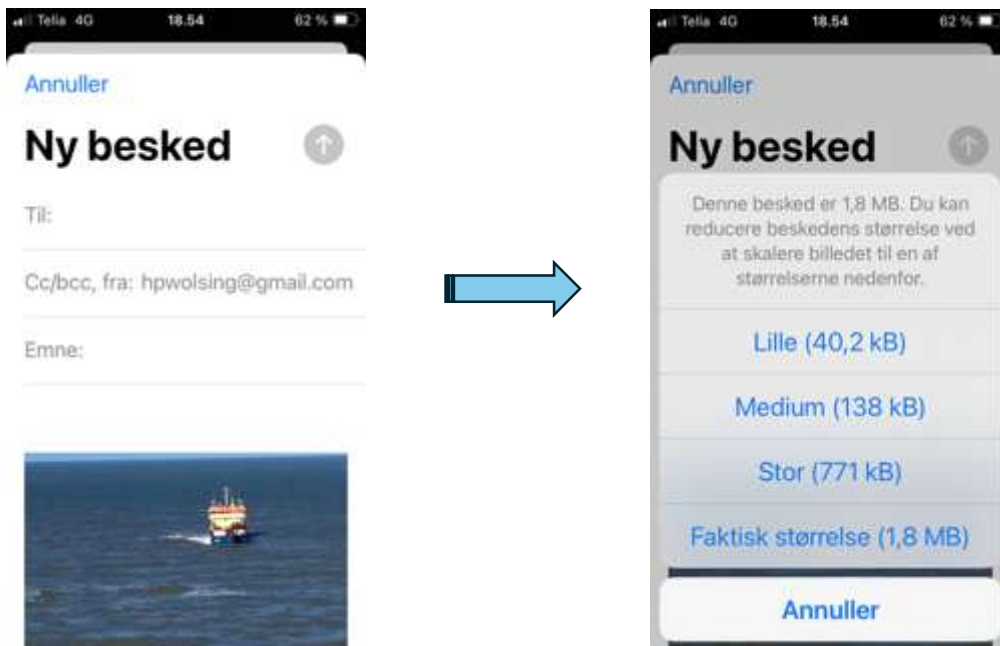

Klik på en mappe og træk de fotos du vil gemme frem. Det kan være en idé at dele skærmen i 2 – altså åbne i 2 browsere...

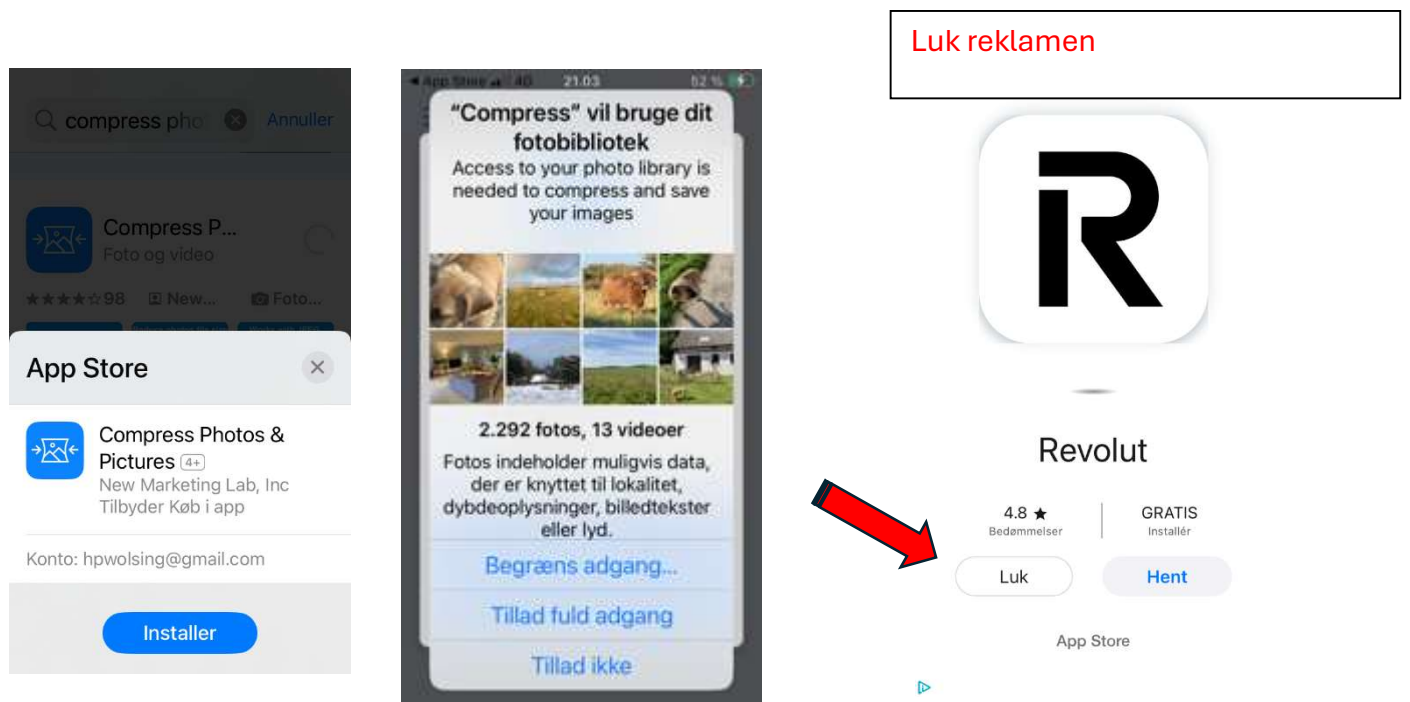

TIP: Er det en bærbar så sæt den til strøm. Og tjek at du har ”godkendt denne pc” på din telefon.
